The Boos 1887 Collection was inspired by the original Boos® butcher blocks that were made from a solid piece of hardwood. Our Boos® 1887 Rustic-Edge Design cutting board is as close to nature as you can get and has a unique story. Each board is kiln-dried, with rustic edges and slight variances. You can even count the age-rings. Some of our boards will have more grain than others; some will have knotholes, and discolorations. All these features make each board beautiful, unique and full of character just like we made them since 1887. Which one of our all-natural Rustic-Edge Design cutting boards speaks to you?
