Our Commitment To Environmental Sustainability
John Boos & Co.’s Commitment To Environmental Sustainability

John Boos & Co. is firmly committed to managing environmental matters as an integral part of our business practice. It is our policy to ensure the environmental integrity and consideration of our processes and facilities at all times. We maintain a high standard of recognition in treating our environment with respect while manufacturing our Boos Block® products.

John Boos & Co. is a long-standing member of the NHLA (National Hardwood Lumber Association). NHLA members practice sustainable forestry and sound forest management.
Consideration For The Air

- John Boos & Co. actively demonstrates air quality control in compliance with all local and federal hazardous air pollution (HAPS) regulations.
- John Boos & Co. facilities compiles with all the EPA air standards and requirements to allow consideration for the air.

Consideration For The Production Resources

- John Boos & Co. demonstrates the use of abundant sustainable renewing timbers in our products as practiced by NHLA Members. Our hardwood foresters follow best professional practices that mirror natural forces. Individual trees are selected for harvest, encouraging forests to renew and regenerate themselves naturally and prolifically.
- John Boos & Co.’s products is recognized as a sustainable and renewable solution for eco-effective design.

Consideration For Environmental Stewardship

- John Boos & Co. has active recycling programs in place with 95% of all raw materials, scrap, and even our sawdust being recycled as fuel to heat our kilns. Our sawdust is also recycled as livestock bedding for our local agricultural needs.
- John Boos & Co. has a written environmental policy. As well, preferences are adopted in the consideration and review of environmental practices and policies of our key vendors.

Consideration For Our Community

- John Boos & Co. is actively involved in our community through service, civic, and charitable organizations. We promote participation and communicate our commitment to responsible environmental management by promoting environmental responsibility among our employees.
Renewable Sustainable North American Hardwoods

John Boos & Co. continues to offer North American Hard Rock Maple, American Cherry, American Black Walnut, and Appalachian Red Oak as sustainable, green design choices. John Boos & Co. maintains a high standard in meeting today’s manufacturing needs without compromising the environment for future generations.
